5 years of experience working with data. Expertise in quantitative modeling, growing people and making data-informed decisions. Currently working as a **Research Associate at TU Hamburg**, conducting research as member of both the **Entrepreneurship & Data Science** groups to acquire broad knowledge about all areas.

I am looking for a position where I can apply the skills that I have developed during my years in practice and academia. As a **(Senior) Data Scientist** at your company, I would be able to leverage my experience in teaching and applying data-driven techniques (technologies used mostly: **R, SQL and Python**).

INDUSTRY EXPERIENCE

Hamburg University of Technology, Hamburg, Germany

06/2018 - Present

Program Manager | Research Associate (Institute of Entrepreneurship)

Conducting collaborative research, teaching students, managing industry projects while pursuing independent research and further academic and data science related qualifications.

- Lead of B2B/B2C industry innovation projects (focus: digital transformation, big data analytics)
- Designed and conducted multiple lecture units and exams in entrepreneurship and data science
- Developed and implemented a *Digital Teaching and Learning Ecosystem* to teach classes remotely
- Supervised student theses, projects and internships
- Presented at international conferences and about to publish in related journals

Lufthansa Technik AG, Miami, USA

04/2017 - 03/2018

Master's Degree Candidate (dept.: Closed Loop Supply Chain Management)

Created a custom AI-based solution for reducing cost & response time (in collaboration with IBM Watson).

- Communication with stakeholders to define and adjust project parameters
- Optimized use of resources to complete projects ahead of deadline and under budget
- Designated resources, assigned tasks and monitored performance for each part of the project

Horváth & Partners Management Consultants, Frankfurt on the Main, Germany

10/2016 - 02/2017

Management Consulting, intern (dept.: Transportation, Travel & Logistics)

Worked as a PMO manager on a project for the development of new location concepts of a large European railroad company, replacing the entire existing infrastructure of this major corporate.

- Operational execution of PMO activities (reporting, financing, preparation and follow-up of meetings)
- Assistance in establishing the project structure
- Preparation of profitability calculations and capacity / utilization analyses for the individual sites

AUDI AG, Neckarsulm, Germany

09/2013 - 12/2013

Process Optimization, intern (dept.: Body Construction A6/A4)

As coordinator of the Lean Manufacturing Team, I was responsible to help people to understand the Lean Management philosophy and the operational excellence approach of AUDI (Audi Production System, APS).

- Coaching of lean methods with focus on problem solving, logistics and process synchronisation
- Preparation and implementation of shopfloor management projects in direct and indirect areas
- Optimizing various processes via process mapping and value stream analysis

Fraunhofer institutes (ILT & IPT), Aachen, Germany

2013 - 2016

Student assistants

L'Arche Greater Vancouver, Vancouver, Canada

08/2010 - 08/2011

(Live in) Care Assistant (Alternative mandatory community service)

TEACHING EXPERIENCE

Data Science

10/2019 - Present

Designer & Instructor of multiple business oriented Data Science and Machine Learning courses:

- Data Science certificate program
- Business Decisions with Machine Learning
- Business Data Science Basics
- Building Business Data Products

Entrepreneurship & Innovation

10/2018 - Present

Teaching students skills needed to build a technology startup from the ground up in varying classes:

- Startup Engineering
- Sustainable Entrepreneurship
- Technology Entrepreneurship
- Creation of Business Opportunities

EDUCATION

Hamburg University of Technology, Hamburg, Germany

06/2018 - Present

Ph.D. Thesis in Innovation Management & Entrepreneurship Science

Quantitative dissertation (using SQL, R, Python) on the influence of social, structural and reputational effects on entrepreneurial success.

- Creation of various databases by scraping different data providers and collaborative platforms
- Natural language processing on linkedin and startup databases to extract features for network analysis
- Machine Learning and statistical analysis on large (> 5 billion records) github and stackoverflow datasets

Maastricht University, Maastricht, Netherlands

02/2016 - 06/2016

Visiting Research Scholar

Polytechnic University of Valencia, Valencia, Spain

02/2014 - 06/2014

Visiting Research Scholar

RWTH Aachen University, Aachen, Germany

09/2011 - 03/2018

B.Sc. & M.Sc. in Business Administration & Engineering

- Selected to the Dean's List & finished within the designated period of study
- Grade: 1.6

PROFESSIONAL DEVELOPMENT (CERTIFICATION)

Business Science University, remote

06/2019 - Present

Applying enterprise-grade end-to-end projects (business & finance) using machine learning and web apps.

- Business Analysis (Data Science Foundations)
- Shiny Web Applications (ML & Business Consulting)
- Data Science for Business (Predictive Dashboards)
- Advanced Web App Development with AWS

DataCamp, remote

06/2019 - Present

Foundations of data science including statistics, inference, computer science, predictive analytics, machine learning and other technologies to gain insights from big data (using R, Python and SQL).

- Data Analyst with R (19 Courses)
- Machine Learning Scientist with R (15 Courses)
- Data Scientist with R (22 Courses)
- Statistician with R (27 Courses)
